

FOLDED TEACUPS

Supplies Needed:

Colored pencils, crayons, markers, etc. (Something to color your teacup!)

Scissors

Tape

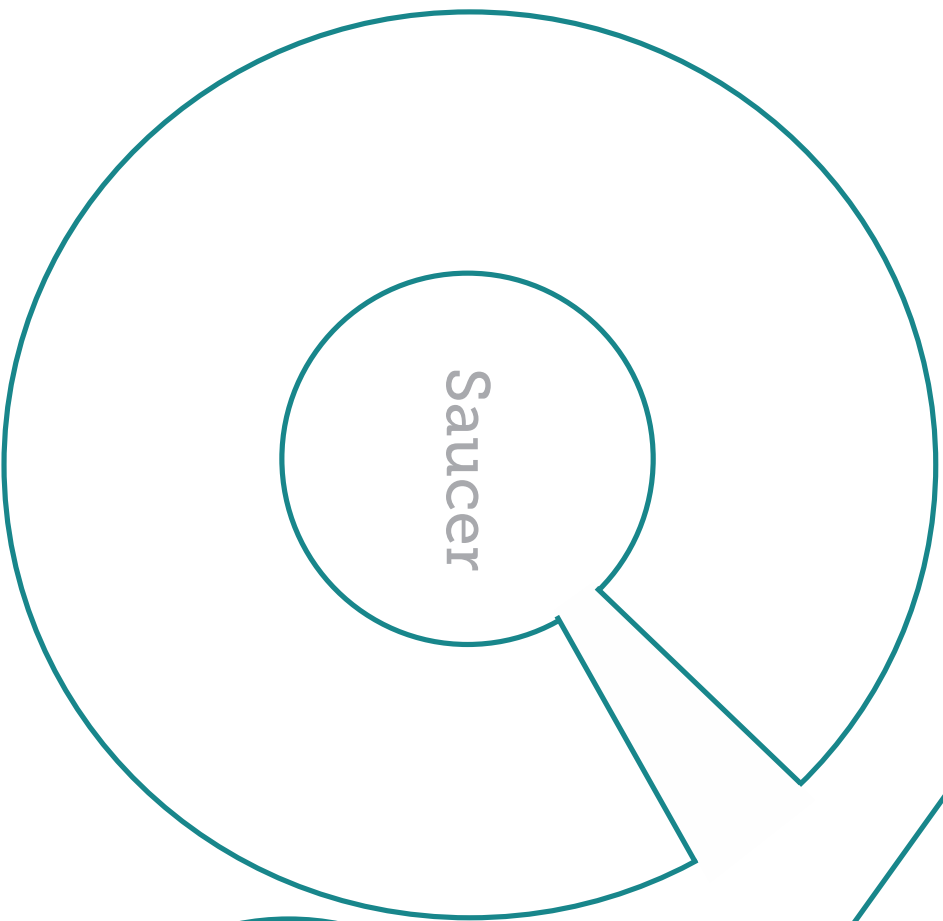

Directions:

1. Color the teacup pieces before cutting.
2. Cut your pieces out.
3. For the base of your teacup (the smaller circle), cut along the lines from the outside all the way to the inner circle, then fold the paper upwards along the inner circle. This will help keep the saucer's shape.
4. Tape the short edges of the saucer piece together, then tape the smaller saucer base piece on top.
5. Tape the short edges of the cup together.
6. Once the cup is taped together, tape the cup to the assembled saucer.
7. Fold the two ends of the handle, then tape them to the cup.
